

## Modbar Technical Bulletin #009

Spring Plunger Update - Modbar Espresso  
September 20, 2017

Modbar has updated the spring plunger. The stainless steel has been replaced with Delrin for increased service life. This update was implemented starting with serial number 1406. All orders made after that serial number include the updated plungers. This part is retrofittable and can be ordered via email at [service@modbar.com](mailto:service@modbar.com).

An online Dozuki installation tutorial is available via this link:
