

Modbar Technical Bulletin #012

Frame & Mains Power Switch - Modbar Steam

September 20, 2017

Steam Frame

Modbar Steam will now have a new frame. The new frames are a lightweight black stainless steel. This update was implemented starting with serial number 10001620. These frames are not retrofittable with existing steam. If you have any questions please email service@modbar.com.

Power Switch

Modbar has moved to a new switch combination for the Steam Module starting with serial number 1001620. **The dual switch will now have a mains power switch on the back of the module and a switch that controls power to the element on the front of the module.** The switch combination is not retrofittable with old Modbar modules.

Rear Switch - Mains Power

Front Switch - Element
