

MODBAR TECHNICAL BULLETIN  
#23  
Modbar AV Drainbox cover

Dear Modbar family member,

AV modules will now come with a modified drain box cover. The new cover directs the water downwards, reducing the likelihood that water will escape during backflushing of the second tap.

The original part code **F.1.116** will be replaced with part code **F.1.116.01**.

This change will be introduced from serial number AV0003004. The new cover is completely interchangeable with the original.

Please do not hesitate to contact us if you have any questions.
